Join our 5 acre Dog Park

A \$50 annual donation for your family's dogs, an application, plus a one time \$10 FOB deposit is required. You can get an application at the Sanctuary or online at www.ARF.org

You can feel secure in the knowledge that all dogs are up to date on shots. And that any aggressive behavior from dogs or owners will be dealt with quickly.

Adoptions

Thor was one of 5 kittens and their mother that were brought into ARF. Helena and Ivy are the only 2 of this group that are still looking for homes.

Thor
Celeste Barrett

Fiji & Aruba
Danielle Miller

Fiji & Aruba were brought into ARF as a group of kittens. They were all very sick with multiple problems. Fleas, coccidia, worms, ear mites, etc. There are still 2 kittens from that litter of 5 available for adoption.

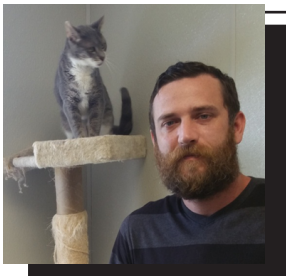

The owners of Baron's past two homes passed away. He is a sweet loving cat and we are excited to get him into a new home.

Baron
Chandler Hanson

Diana & Logan
Mike & Beverly McGrew

Diana & Logan were one of 5 kittens (along with Thor above) and their mother that were brought into ARF. Helena and Ivy are the only 2 of this group that are still looking for homes.

Electra was rescued after spending at least 3 days stuck on top of an electric pole. She has always been "wired" so that makes sense.

Bartlesville Spay/Neuter Assistance Programs

Animal Rescue Foundation of Bartlesville is so proud to announce that we were recently able to hold our first solo Spay/Neuter clinic at our new building. The clinic was held on August 19th and thanks to Doctors Brady & Jana Robbins and their incredible techs, Jared, Kim, & Rhonda, it was a huge success.

We were able to Spay/Neuter 51 dogs & cats

Our next clinic is on October 21. You must come in to ARF and prepay to reserve a spot at the clinic.

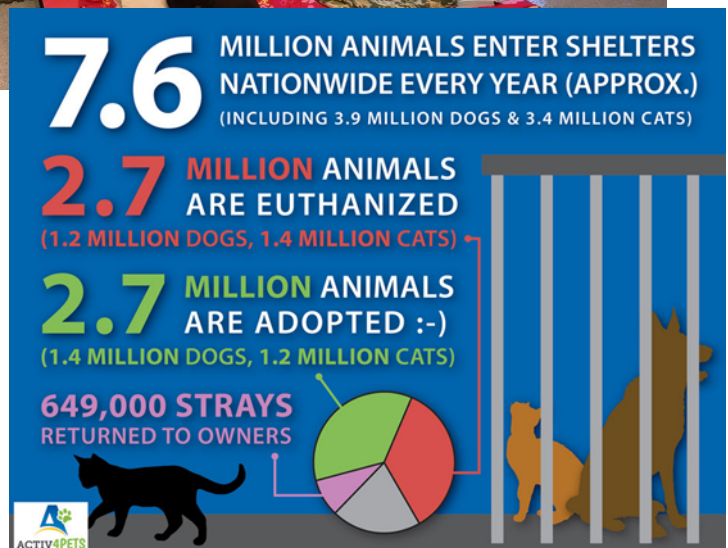

Low Cost Spay/Neuter Price list

Dog surgery includes rabies shot if needed
 <50 lbs - \$60 >50 lbs - \$70
 Cat surgery includes rabies shot if needed
 \$45

There can be added costs such as, if the females are in heat or already pregnant. Or if other shots are requested.

Spaying or Neutering your pet NOW will...

- Help your dog live healthier, longer: Medical studies show that spayed or neutered cats/dogs live more than 2 years longer, on average.
- Calm those restless hormones: Spayed and neutered dogs/cats are far less likely to roam, no females in heat to deal with, and no litters of puppies/kittens!

Heartfelt Rescue Stories

Edith Ann

Born November 17, 2015. Edith Ann and her kittens were dumped in a box on a country road. She had 5 kittens and she was a good mother even though she was out in the elements. While she was out hunting for food a rescuer found her babies and took them to ARF, when Edith Ann came back to find her babies gone she was devastated. Good luck happened when the rescuer went back to the same spot and found Edith Ann and took her to ARF to be reunited with her babies. She must have had a good home at one time since she is a very loving cat to humans. She would like to be an only cat.

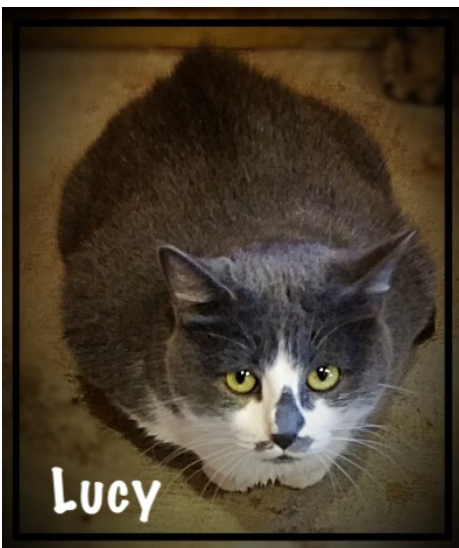

Louise

Thelma

Lucy is the mother of Thelma & Louise. Lucy was dumped as a very young very, pregnant cat. She had 3 kittens. But, one did not survive. Lucy loves to play with running water from the sink tap or a fountain water bowl. Lucy is approximately 5 years old and her daughters are 4. Louise is very friendly and loves to be held. Thelma is a little shy, but comes around and would love to have a lap to sit on.

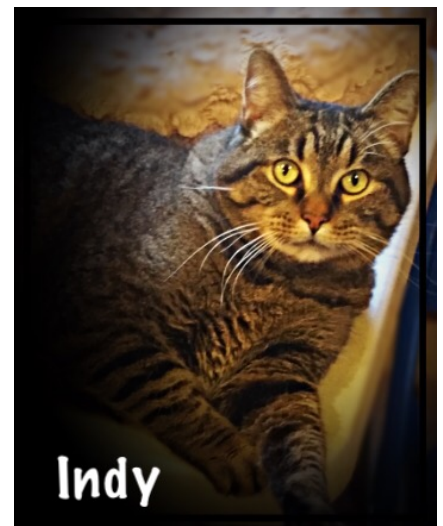

Indy is a HUGE lovable cat. He is declawed and would rather be an only cat. He loves to be petted, but is fiesty. He gets over excited and can give some love nibbles to your hand.

Lucy

All 4 cats came from the Okie New Hope Animal Rescue Foundation. Their owner Betsy Brown recently lost her battle with ovarian cancer. Please help us by becoming a loving forever home to 1 or more of these sweet kitties.

Wally

We are sad to announce the passing of ARF's door greeter cat, Wally. He originally belonged to ARF's neighbor when he started hanging out at our front door. We started feeding him and he slowly worked his way into our reception area. Before long we called the neighbor to get permission to have him vetted and for him to start sleeping inside. He quickly made himself at home. You could always find him wherever work was trying to be done such as; laying on papers, keyboards, laps, phones, shoulders, etc. He passed away from natural causes due to age.

With all the rain we've been experiencing in the area please make sure you are keeping your outdoor pets safe.

n Make sure your pet has a dry warm place to sleep. Check the bedding often to make sure it isn't damp or moldy.

n Check gravity fed or automatic feeders to make sure the food is not damp or moldy.

n Change outdoor water bowls frequently to keep algae from building up.
